- “Electronic mail” means messages sent by a user and received by another through an electronic service system utilizing the internet. Any communication sent to the court by electronic mail is not considered a legal communication of any form and will not be received or ruled upon by a judge or entered into the court record.
- “Document” means any pleading, motion, exhibit, declaration, affidavit, memorandum, paper or photographic exhibit, order, notice, and any other filing by or to the court, except trial exhibits that have not yet been admitted into evidence by the court.

Rule 1.09(d)

All electronically filed pleadings must be signed by an attorney admitted to the practice in the State of Ohio or party not represented by such an attorney.

- Any signature on electronically transmitted documents shall be construed that of the attorney or party it purports to be for all purposes. If it is established that the documents were transmitted without authority, the court shall order the document stricken.
- No attorney shall authorize anyone to electronically file on that attorney’s behalf, other than his/her employee or a service provider retained to assist in electronic filing.
- The electronic filing of a document by an attorney, or by another under the authorization of said attorney, or by a party not represented by an attorney shall constitute a signature of that attorney or party under Ohio Civil Rule 11.
- No person shall utilize, or allow another person to utilize, the password of another in connection with electronic filing.

Rule 1.09(e)

The electronic filing service shall be available twenty-four hours per day, seven days a week. Documents transmitted outside of regular court hours shall be deemed filed on the next normal business day of the clerk.

Rule 1.09(f)

A document electronically filed shall be accepted as the original filing if the filer complies with all the requirements set for in this rule. The filer shall not be required to

Rule 1.09(g)

The system shall establish an electronic filer user account and assign a filer identification number and initial password to be used for electronically filed documents.

Filers will be notified via electronic mail if the filing is rejected for any reason. A corrective filing may be sent at a later time if the filer elects to do so, but such a filing will be considered a new filing and will not relate back to the date and time of the original attempt to file the document. If a document is rejected due to technical errors and the filer wishes to have the corrective filing relate back to the date, the filer must file a motion with the court seeking such relief.

Rule 1.09(j)

Rule 1.09(k)

Where an electronic mail address has been filed with the court by affixing the same to any document or by the filing of a separate notice of electronic mail address, service on the attorney or party by electronic mail shall constitute service pursuant to the Ohio Civil Rule 5 and Ohio Criminal Rule 49 but shall not entitle the attorney or party to the additional three days provided by

Ohio Civil Rule 6(e). Documents served electronically shall contain proof of service setting forth the electronic mail address at which the attorney or party was served.

In sentencing a defendant for a misdemeanor offense, other than a minor misdemeanor offense, the Court may do either of the following: impose one or more community control sanctions or a jail term. In addition to a jail term, the Court may impose any combination of community control sanctions.

Rule 11.06(b) – Five Year Limit and Tolling While Under Warrant

The Court shall not impose any community control sanction or combination of sanctions that exceed five (5) years. Upon the issuance of a warrant for a defendant’s arrest, the period of supervision shall be tolled. The period of supervision shall remain tolled until such time as the defendant is apprehended and the warrant returned. The period of time a defendant spends on “warrant” status shall be added to the totality of their period of supervision.

Rule 11.06(c) – Violation Warnings at Sentencing

At sentencing, the Court shall advise the defendant a violation of the community control sanctions imposed could result in:

- Imposition of a longer term under community control sanctions not to exceed the statutory maximum period of five (5) years;
- Imposition of a more restrictive community control sanction;
- Imposition of the suspended period of local incarceration;
- Imposition of a portion of the suspended period of local incarceration.

Rule 11.07 – Concurrent Supervision of Defendant

Rule 11.07(a)

Any defendant placed on community control supervision or probation supervision in one or more municipal courts or one or more common pleas courts or one municipal court and one common pleas court shall be considered a defendant under “concurrent” supervision pursuant to Ohio Revised Code Section 2951.022.

Rule 11.07(b)

In general, the court with the longest period of supervision shall supervise the defendant’s period of probation supervision or community control supervision. In the instance the defendant is sentenced to a period of supervision equal among all courts, the court with closest, territorial proximity to the defendant shall supervise.

Rule 11.07(c)

In deciding whether to transfer supervision to another jurisdiction, the Court shall consider:

- the safety of the community;
- the defendant’s risk of recidivism;
- the nature of the offense;
- the likelihood the defendant will reside in the jurisdiction;
- the defendant’s ability to travel between residence, place of employment, or school to the supervising authority’s offices;
- the rehabilitation resources available in the jurisdiction;
- any other factors relevant to sentencing.

Rule 11.08(a)

Section 14 – Technology Plan

Rule 14.01(a)

The Local Court Rules established in Section 14 pertain to the utilization of technology in the delivery of court services and maintenance of judicial operations. The applications highlighted in this Plan include both publicly accessible technologies serving litigants, attorneys, members of the public, and other stakeholders, as well as internally accessible technologies serving judicial officers and court personnel. IT infrastructure information is not included in this list for safety and security reasons, including firewall, storage system, backup, anti-virus, disaster recovery, and cyber security.

The purpose of this Technology Plan is to:

- Define how the Court uses technology to support attorneys, parties, and members of the public and what specific technology is available for case management, case filing, recordkeeping, efficient communications, and administrative functions.
- Provide a list of the Court’s IT functions and applications that support serving the public.
- Assist the Court in more readily identifying opportunities for improved efficiency and potential savings through use of technological solutions.
- Promote the alignment of IT initiatives with the goals of the Court.

Rule 14.02 – Case Management and Payments

The Perrysburg Municipal Court uses *Henschen & Associates, Inc.* specialized municipal court government software for its case management functions. The software vendor provides training to Court staff at the time of system upgrades, and new staff receive training upon hire by experienced Court staff users. The software contains docketing functions, case-related functionality, case-related financial information, and internal case notes. The Court utilizes the software to scan and electronically store court records and other case-related documents.

This application is utilized internally by Court staff and has a public interface through the Court’s website. The public cannot access scanned documents online through the Court’s website; however, paper copies of scanned documents will be provided to the public upon request after payment of the actual cost of printing. The Court’s website contains a General Record Search Disclaimer explaining the limitations of the online data retrieval system.

The Court utilizes *Henschen & Associates, Inc.* software to send digital reminders of court dates. While scheduling hearings, litigants are asked if they would like to “opt in” to the digital notification process and are asked to complete a contact information sheet that collects their cell phone numbers.

Online payments of court-related fees and fines are provided through *Henschen & Associates, Inc.* and *Lexis Nexis*. Users must agree to the terms and conditions policy before entering the online payment portal. *Lexis Nexis* integrates with *Henschen & Associates, Inc.* to provide real-time updates when payments are made.

Rule 14.03 – Electronic Court Filings

The Clerk of Court accepts filings electronically via fax in accordance with Local Rule 1.08. The Court intends to implement e-filing through its case management software in 2026.

Outlook is the email software utilized by all members of the Court. A dedicated departmental email address and individual email addresses for all administrative support staff have been established for communications only. Electronic filings are not accepted through email except in cases of emergency when fax filing is not possible in the instance of technical failure or pro se users that have no access to a fax machine.

Rule 14.04 – Hearing/Proceeding Management

The Perrysburg Municipal Court uses the *Jefferson Audio Visual Services, Inc. (JAVS)* hardware and software for hearing/proceeding management. *JAVS, Inc.* is the digital system the Court uses to record hearings and proceedings in either courtroom. The Court does not provide a transcript of hearings and/or proceedings, but it will provide a digital copy of the hearing/proceeding upon request.

The Court utilizes *Telesystem* as its dedicated video communication line to the Wood County Justice Center (WCJC) and the Corrections Center of Northwest Ohio (CCNO) for video hearings. The Court utilizes *Microsoft Teams* and *Zoom* for video communication with the Ohio Department of Rehabilitation and Correction (ODRC) and the Correctional Treatment Facility (CTF) of Lucas County, Ohio. For presentation and display of evidence during hearings and proceedings, the court uses *JAVS Evidence Management*.

The Court also uses *Visual Intelligence Portfolio (VIP) Software Solutions, Inc.* to create and track purchase orders and invoices submitted to the City of Perrysburg Department of Finance. *ClearGov* software is used to prepare annual budgetary reports, forecasts, and miscellaneous spreadsheets. *VIP* and *ClearGov* were purchased and managed by the City of Perrysburg.

Rule 14.07 – Human Resources

The Perrysburg Municipal Court uses *Right Stuff Software* for scheduling and time-keeping functions for payroll. The City of Perrysburg Department of Human Resources utilizes *NEOGOV* software for the application and interviewing processes of new hires. Both software packages were purchased and managed by the City of Perrysburg.

Rule 14.08 – Interface Management

The Perrysburg Municipal Court integrates with several outside applications and entities. The *Ohio Courts Network* is used to report offender case dispositions. The *Bureau of Criminal Investigation* is used for statutory reporting requirements. The *Ohio Bureau of Motor Vehicles* is used to report convictions. Instructions for use are provided by the vendor.

Operated by the Ohio Highway Patrol, *LEADS (Law Enforcement Automated Data System)* provides a repository of data available statewide and interfaces to the NCIC and NLETS systems. The NORIS interface for LEADS is a user-friendly, front-end application used to interface NORIS with LEADS. Law enforcement, courts, and prosecutors can query on driving records, vehicle ownership, stolen property, missing persons, warrants, and parole status. Driver's license images and criminal histories can also be viewed. In addition to LEADS, the application also provides access to the National Crime Information Center (NCIC), the Ohio Bureau of Criminal Identification and Investigation (BCI&I), and the Interstate Identification Index (III).
